at tessract.io

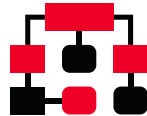

It's not rocket science

tesseract.io is designed for absolute efficiency and refined control of tasks and time

Technology Tools

tesseract.io arms your practice for the challenges of tomorrow. Integrating technology such as Business Analytics, Optical Character Recognition and VoIP Call functionalities.

Comprehensive Case Management

tesseract.io helps you track all that happens in a case. We help handle team workflow, communications, scheduling of meetings etc. Manage it all on the go with our native Apple/Android Apps.

Full Document Management

tesseract.io automatically syncs with leading cloud storage options to help prioritise case continuity. Now all documents or case details can be pulled up from a single location.

Accounting

tesseract.io integrates with a full accounting system providing a seamless flow of bills and invoices from your cases directly into your Chart of Accounts. Do it all with a few clicks.
